GRADES 6-12

CEO
OF MY LIFE

STARTUP INNOVATION ACADEMY

Give your child the opportunity to become the CEO of their life, designing their own path while gaining a competitive advantage for college admission and success in the innovation economy through real world career experiences with leading corporations and launching real start up companies with their peers. Students also learn the most relevant life, business and career practices including tools like design thinking and Lean Methodology from Stanford University.

Participants Will Gain

- Self-Confidence
- Leadership Skills
- Collaboration Skills
- Project Management Skills
- Early Career Portfolios
- Personal Brand Development
- Real Business Experience
- Public Speaking Skills
- Exclusive Network Access
- Social Responsibility
- Global Competence

WEEK 1

Builds confidence that a bulldozer can't move. Identifying unique skills that make you special and the talents & interests that bring value to the professional you'll be in the future.

"dream team" competitions
group eliminations,
apprentice-style,
startup competitions

WEEK 2

Use the tools you learn in week one to execute in week two. A series of competitions fueled by real life design projects put on by major companies is sure to push your imagination and creativity to the edge.

You'll get the chance to launch startups that solve real world problems.
Winning students get a chance to pitch the best projects and ideas to leaders in the startup community.
